PLANNING FOR FUNDING
• Create a long-term funding plan and fellowships working document – a place to store any opportunities that might be relevant now or later.
• Make time: Start working at least two months ahead of a deadline.
• Create a template of your research, personal, and diversity statements, but be sure to adapt and personalize each application to the prompt at hand.
• Give your recommenders adequate details on the fellowship program and provide them with a draft of your proposal far ahead of the deadline.
• Consult UChicagoGRAD and current/former fellows to access samples of successful proposals.
