Welcome to the documentation wiki for the Radiomics Machine Learning Facility! Please refer to the sidebar for a list of topics to browse.

This wiki is a site for users of the University of Chicago Radiomics Machine Learning Facility (RadMLF) to learn how to use the facility and to receive updates and news.

New users are encouraged to read the Introduction, which includes a brief description of the facility and its sponsorship, and information on obtaining an account.

After obtaining an account, new users should read the Quickstart page and experiment with running some programs.
