NCI (PMB) FAQ

1. We just became aware of an error that involved CTEPs supplied investigational agent. How do we report it, and is there any specific information you need?

2. What if I use commercial drug for a study patient, or investigational drug for a commercial

3. What is a satellite? Or, is it OK for us to send drug that we have ordered from the PMB to one of our other offices/sites?

4. How should I record investigational agents that come in oral dosage forms?

5. Injectable agents in vials (sharing and overfill)

6. Lost shipment or missing drug)

7. Patient returns of oral NCI medications
