Scheduling Discussion Sections

Discussion sections are scheduled based on CAs' availability. To schedule, have your CA(s) consult with the Department Assistant, who coordinates room scheduling in Cochrane-Woods. On the first day of class, pass around a sheet and have students sign up for sections according to the times determined by your CA(s). Keep in mind that CAs can teach no more than 25 students per section. Another option is to have the CA(s) coordinate discussion sections around students' schedules. Any student wishing to add a course during the add/drop period must be able to attend a discussion section in order to enroll.
