Websites

Here is a list of websites that will be of use during your rotation:

United Network for Organ Sharing (UNOS), the organization that coordinates deceased donor transplants: (http://www.unos.org/)

The American Association of Histocompatibility and Immunogenetics (ASHI), the organization that accredits HLA laboratories and HLA clinical testing: (http://www.ashi-hla.org/)

The National Marrow Donor Program (NMDP), also known as Be the Match, the organization that coordinates unrelated stem cell and cord blood transplants: (http://bethematch.org/)

Tools for clinicians and researchers provided by the NMDP: (https://bioinformatics.bethematchclinical.org/)

IMGT-HLA, the database for all of the characterized HLA alleles: (http://www.ebi.ac.uk/ipd/imgt/hla/)

GenDx website (https://www.gendx.com/)

Here is a list of educational websites:

This is a link to an animation that describes Sanger sequencing: Sanger Sequencing
